SUBSIDIZED HEALTH SERVICES
As a full-service regional referral center HaysMed provides many services that as a stand-alone service are not profitable, but meet a defined community need. Examples of these services include sexual assault response care, outpatient behavioral health, infant/child development, and some other outpatient services. In Fiscal Year 2014, the number of patients benefiting from services such as these were 41,606 at a net loss of $12,423,399.

CHARITY CARE
HaysMed provides comprehensive health care to all people, including those in financial need. In Fiscal Year 2014, we provided $1,400,813 of free care to 1,444 patients who did not have the financial ability to pay for their services. About 17.5 percent of the population of Kansas, have no health insurance. A large proportion of this is made up of working families who are self employed or work for small businesses that do not provide health insurance as a benefit.

COMMUNITY HEALTH EDUCATION AND OUTREACH
Each year HaysMed provides education and outreach services to the community at little or no cost so that money does not become a hindrance to participation.

MEDICARE AND MEDICAID PUBLIC PROGRAM SHORTFALLS (UNREIMBURSED MEDICAID)
Government programs such as Medicare and Medicaid offer fixed reimbursements based on a patient’s diagnosis. This often does not account for the cost of the latest technology and treatment options that are available to give patients the best chance for recovery from an illness. HaysMed offers patients the best interventions available – no matter what reimbursement for the service might be.

In Fiscal year 2014, 6.0% of our patient services were provided to beneficiaries of Medicaid. This equated to 3,633 patients and resulted in reimbursement that was $2,517,636 less than the cost of providing these services.

In addition to the community benefit presented above, in Fiscal Year 2014, 50.3% of our patient services were provided to beneficiaries of Medicare. This equated to 12,918 patients and resulted in reimbursement that was $6,429,224 less than the cost of providing these services.

DONATIONS/CASH AND IN KIND CONTRIBUTIONS
Each year HaysMed donates to many community organizations that improve the health of the citizens of the region.

HEALTH PROFESSIONS EDUCATION
HaysMed is a major supporter of continuing medical education for our physicians. It is important for physician retention to provide opportunities for our physicians to continue to add to their skill level to provide the latest services to the patients we serve. In Fiscal Year 2014, $980,608 was invested in these endeavors.
