

Hays Medical Center

Interval Golf Program

General Principles:

The athlete should always perform an appropriate warm-up including stretching exercises before hitting. The athlete should ice the affected extremity for 20 minutes following all activities throughout the protocol. The athlete should perform the workouts every other day, and progress to the next phase when able to complete current phase without pain or difficulty.

The following key will be used to define the clubs used for the protocol:

Chips- LW, SW, PW	Long Irons- 4, 3, 2
Short Irons- PW, 9, 8	Woods- 3, 5
Medium Irons- 7, 6, 5	Drives- Driver

Week 1:
