

Internship

An internship at The Center for Health Improvement will provide an experience that will direct a path towards a future career, as well as, fulfill the necessary college degree requirements. The Center is a state of the art, nationally accredited medical fitness facility that offers its members top of the line programs and services. As an intern at The Center one will be able to learn and interact in all of the same programs and services available to our members. Our outpatient clinics (Cardiopulmonary Rehabilitation, Physical/Occupational Therapy, etc.) are available as additional experiences during the internship. We strive to make our internships specific to each student's needs and interests.

We offer one 12-week internship per semester at 20 to 40 hours per week depending on credit hours needed. In addition to a completed application, please send a cover letter, resume with references and an official transcript to the internship supervisor, by the deadline listed below.

Spring term - October 1

Summer term - March 1

Fall term - June 1

continued on back side

Responsibilities:

- Learn and follow HaysMed and The Center for Health Improvement policies and procedures
- Provide quality customer service and attend to members' needs
- Conduct fitness assessments; evaluate member's current fitness status, aid in setting realistic goals based on member's functional level and physical limitations
- Assist in program planning and designing exercise programs using ActiveLinxx system
